

Press Release

The Broadband Companies, LLC recently signed a strategic teaming agreement with NextiraOne Federal, LLC *dba* Blackbox Network Services.

Blackbox Network Services, a multi-billion dollar telecommunications system integrator, is dedicated to the design, engineering, implementation, and maintenance of complex network and communications solutions.

The agreement allows The Broadband Companies, LLC the opportunity to provide design, engineering, installation, and project management services to Black Box Network Services' clients. This list includes Executive Federal Agencies and The Department of Defense.

The Broadband Companies, LLC will also benefit from the strategic teaming agreement with access to leading edge manufacturers of telecommunications and network equipment and components.
